

# WE ARE REBRANDING

**Don't worry though, the only thing that's changing is our name.**

From the 1<sup>st</sup> of October 2018, BML Drainage Ltd will officially change its name to **DSP Drainage & Plumbing Ltd.**

Nothing has changed about us or about what we do. We are still the largest privately owned drainage, plumbing & sewer specialist in the South East of England. Providing round the clock services 24 / 7 365 days a year by the same people as before, we have just changed our name.

Our Company Registration, HMRC & VAT details remain the same. As well as employee contact information, telephone numbers & our address.

We will advise your company's accounts department nearer the time.

All drain cleaning maintenance agreements will be automatically transferred to DSP drainage and plumbing ltd .

We wanted to thank you for your business, and we look forward to continue offering our services to you & we will keep you updated over the coming month's.
